

## Fastest Growing Online Recruitment Company in EMEA

CV-Library has been ranked at position 197 in the Deloitte Technology Fast 500 EMEA 2011, due to its incredible growth over the last five years.

This highly respected title is awarded to the 500 fastest-growing technology companies across Europe, the Middle East and Africa. The rankings are based on percentage revenue growth and CV-Library made it into the top 200 due to its impressive growth of 822%.

Lee Biggins, Managing Director at CV-Library: "As the only online recruitment company in the top 500 we are thrilled to be recognised by Deloitte for our expansion over the past five years. Not only is our revenue growth huge but we also hold the fastest growing CV database in the UK, confirmed by a recent ABCe audit. Our internal team has also increased by approximately 30% in the last year to ensure all of our clients have the support they need. We continue to employ industry experts to develop our software technology in order to keep up with our fast growth.

"But we won't be stopping there. We have lots of exciting mobile plans in place for 2012 and we hope to be one of the leading technology companies again next year!"

"Making the Deloitte Technology Fast 500 EMEA ranking is a testament to a company's commitment to technology," said David Halstead, Deloitte United Kingdom and partner in charge of the Deloitte Technology Fast 500 EMEA programme. "With its 822% growth rate over five years, CV-Library has proven that its leadership has the vision and determination to grow in competitive conditions."

Less than a month ago CV-Library announced it won 37th place for the 2011 Deloitte UK Technology Fast 50. They have also been highly recommended as Best Job Site for both the Recruiter Awards 2011 and the Recruitment Consultant Awards 2011.
